

A A T A A T T C A T T A

The image shows a DNA double helix structure. The top strand consists of 11 nucleotides: A, A, T, A, A, T, T, C, A, T, A. The bottom strand consists of 11 nucleotides: C, A, G, G, C, C, A, G, G, C, A. The letters are connected by horizontal bars representing base pairs. The top strand is colored green for Adenine (A) and red for Thymine (T). The bottom strand is colored blue for Cytosine (C) and green for Adenine (A). The letters are in a bold, sans-serif font. The background is white.
