

AGGCTGCTA

The image displays a DNA double helix structure with a sequence of bases: A, G, G, C, T, G, C, T, A. The bases are color-coded: A is green, G is yellow, C is blue, and T is red. The structure shows the pairing of bases (A with T, G with C) and the sugar-phosphate backbone.

Base	Color	Pair	Pair Color
A	Green	T	Red
G	Yellow	C	Blue
G	Yellow	C	Blue
C	Blue	G	Yellow
T	Red	A	Green
G	Yellow	C	Blue
C	Blue	G	Yellow
T	Red	A	Green
A	Green	T	Red
